

Assessing Pupil Progress: *Creative Learning*

Name		Tutor Group	
------	--	-------------	--

Level	AF1 Thinking Creatively	AF2 Applying Knowledge	AF3 Communicating Effectively	AF4 Developing Flexibility & Resilience
E	I enjoy using my imagination to generate new ideas. I can make connections between apparently contradictory ideas and employ a range of thinking strategies to reflect on my learning. I am able to assess the value of mine and others' ideas.	I have developed excellent subject knowledge and can confidently apply this to a range of tasks. Through a research based and questioning approach, I am able to connect aspects of my learning both inside and outside school. This style of learning enables me to develop creative ideas which I can use in many learning environments in order to solve complex problems.	I can use appropriate tools to create informative, engaging and persuasive presentations. I have excellent speaking and listening skills. I am fully aware of my audience. I can work very effectively either individually or as part of a team. I display leadership qualities.	I react positively when faced with challenges and setbacks. I can maintain concentration and work with a real sense of purpose most of the time. I am often absorbed in my work. I really enjoy learning and taking risks. I make useful links with other learners outside school.
8	I frequently use my imagination to generate new ideas. I can link different ideas together and use a range of thinking skills to reflect on my learning. I am often able to assess the value of mine and others' ideas.	I have developed confident subject knowledge and can apply this to a broad range of tasks. Through a research and questioning approach, I am able to connect many aspects of my learning both inside and outside of school. This style of learning enables me to develop creative ideas, which I can use in many learning environments in order to solve challenging problems.	I can use appropriate tools to create informative, engaging and persuasive presentations. I have excellent speaking and listening skills. I am aware of my audience. I can work effectively either individually or as part of a team. I often display leadership qualities.	I am often able to react positively when faced with challenges and setbacks. I can often maintain concentration and work with a sense of purpose. I can get absorbed in my work. I enjoy learning and taking risks. I have made some links with learners outside school.
7	I often use my imagination to generate new ideas. I am able to link different ideas together and use a range of thinking skills to reflect on my learning. I am able to assess the value of mine and others' ideas.	I have developed very good subject knowledge and can apply this to given tasks. Through a research and a questioning approach I am able to connect up many aspects of my learning both inside and outside of school. This style of learning enables me to confidently develop creative ideas in order to solve increasingly challenging problems.	I can use appropriate tools to create informative and engaging presentations. I have very good speaking and listening skills. I am often aware of my audience.
